HYPERWAVE

Intranet and Private Cloud Solution

One workspace for all your needs: collaborate on a project, easily create documents, quickly distribute information and effortlessly gather feedback.
And of course, it's all secure, traceable and intuitive.

Simplicity
Quick to implement, intuitive to use and easy to access from anywhere.

Security
Your data is in safe hands. Hyperwave is a leader in data security.

Great service
Contact our team directly to deal with all your requests.

Flexibility
Your application and system environment take center stage. Not our software.

IS/8
Your secure server solution
Scalable, extendable, traceable

eKS
Document Management
Simple navigation, search and editing of data

HTW
Our Team Workspace
Collaboration, planning, archiving e-mails

WCM
Web Content Management
Easily create websites, blogs and wikis

WFO
Workflow
Distribute, control, delegate, easily design business processes

HYPERWAVE is the start page of your working day. From tasks to appointments all the way to news - every important piece of information at one single glance.
